

Starved and Exhausted!

In the past decade more than 1,700 accidents have resulted from poor fuel management. Why is there a fuel accident or incident in the United States at a rate of almost 4 per week? In recent years this number has climbed from an average of only one per week. At this exciting safety briefing we will examine actual fuel related accidents and discuss mitigation strategies that will prevent them from happening to YOU! Fuel related incidents & accidents fall within the Top Ten Causes of Aircraft Accidents! Pilots realize that FUEL is their lifeline, so why do they cut it so often? Attend this briefing and become a safer pilot! Click on the link below to see all the details and register TODAY!

Directions: Airport can be accessed from Belt Parkway or Nassau Expressway. USE MAIN ENTRANCE BY HOTELS. Follow signs to PA Bldg.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
